Timeclock

Astronomical 365 day timeclock

The Philips Dynalite DDTC001 timeclock provides a tamper resistant solution for time-based event control on a DyNet network.

DDTC001

Astronomical 365 day timeclock

- **Remote programming** – The device is programmed via a PC and there are no external controls available, providing a tamper resistant solution.
- **Advanced clock controls** – Features sunrise/sunset tracking and automatic adjustment for daylight saving.
- **Performs as an energy management controller** – Uses powerful macro and conditional logic functions to provide full automation of large commercial projects, where automatic lighting events are required at predetermined times.
- **Flexible mounting solution** – DIN-rail mounted device, designed to be installed into a distribution board.
