Wall/ceiling mount 90° multifunction sensor

- Motion detection feature Detects the presence or absence of motion and adjusts lights accordingly. The sensor has a 90° scan pattern with flexible angle adjustment.
- Ambient light level regulation In applications where it is necessary to maintain even lighting, the PE function reads ambient levels and adjusts artificial light accordingly.
- Infrared receive capability Manually adjust light levels using a hand-held remote control, via the inbuilt IR receive sensor.

Daylight harvesting mode — Delivers automatic energy savings.

- Multiple mounting options and can be surfacemounted (wall/ceiling), or partially recessed (ceiling only) using the supplied junction box or butterfly clips.
- **IP54 rating** Dust- and splash-resistant housing allows installation in a variety of indoor and outdoor applications..
